

## Neil Mammen

Neil Mammen, a non-hyphenated first-generation immigrant, is an Engineer by day and an Apologist (defender of the Faith) by night. Neil is African by birth and was born in Ghana and grew up in Jamaica, Sudan, Ethiopia, India and Yemen.

Though Neil's family is predominantly Christian and his Grandfather was a lay-preacher and very active in the Church, Neil's extended family consists of a large number of Atheists, Marxists, Communists and Social Justice Activists. Three of his uncles were leaders in the Communist Party in South India, one who was on the run from India's Prime Minister Nehru with a price on his head (after Indian Independence Nehru was trying to ensure Communism did not become established in India). One of the three Uncles was rejected from the Communist party because of his involvement with the Church and yet rejected from the priesthood because of his involvement with the Communists. This uncle went on to become Chairman of the World Council of Churches, one of the more influential Liberation Theology Social Justices organizations in the world (a movement that Neil actively speaks against). As a believer in a morally restrained Free Market, in a family of Socialists and Marxists, Neil is the black sheep.

Neil's father was a communist and an atheist until his salvation when Neil was young. So he was blessed to grow up in a deeply Christian home. Having a Bible believing father who was a scientist, it was natural that he and his siblings grew up with a very logical and rational faith. This upbringing led to his research and eventual teaching and writing books on Apologetics and Theology and the founding of No Blind Faith Ministries.

As an engineer, Neil spends his time designing video and networking systems, computer chips and boards with **TentmakerSystems.com** and other US and international engineering companies. He had over 16 pending or issued patents and has been the founder or co-founder of 4 startup companies. Working with his cofounders as CTO or VP of Technology Neil helped raise over \$88M in Venture Funding for his various companies.

Neil is the founder of **NoBlindFaith.com**, an apologetics, theology and evangelization ministry. Apologetics is the investigation and defense of the truth of Christianity using facts, reason, science, history, archaeology, and philosophy. Neil is a speaker at conferences around the U.S. NPR debating Eric Rothschild of the ACLU and Eugenie Scott; and on over 40 radio shows including the Bob Dutko Show, the Lars Larson Show, the Sam Sorbo Show, the Eric Metaxas show, American Family Radio and on KKLA with the late Frank Pastore. He is the President of the Values Advocacy Council, has spoken for the Family Research Council and has been a speaker at the Values Voter Conference.

In 2014 Neil toured the great state of Kansas with its Governor, Sam Brownback calling Churches and Christians to get involved in the *Awakening Freedom Tour* (video available at [kansasvideo.jesusisininvolvedinpolitics.com](http://kansasvideo.jesusisininvolvedinpolitics.com)).

Neil's Daily Jesus and Politics One Minute Broadcast has been heard on 160 stations around the U.S. on AFR radio. To hear them online visit [www.J3IP.WordPress.com](http://www.J3IP.WordPress.com)

He used to be a regular guest every Monday at 8:15 AM PST on the syndicated Sam Sorbo Show while it was running.

One of his focuses is to get Reynolds v. Sims, 1964 (and Baker v. Carr,1962 and Wesberry v. Sanders,1964) overturned in the Supreme Court, as he feels this is the only way to protect conservative states from going liberal with the mass exodus from liberal states. *Neil speaks so powerfully. No one can leave Neil’s presentation still passive about their involvement in politics. His story of growing up in Yemen and his focus on the horrible practices that ended because of Christianity (through Christian laws), gives his audience a firm understanding of the value of the Judeo-Christian founding of our exceptional nation. His book is the perfect tool for explaining this, and influencing the 40 million non-voting Christians to engage the political discourse, whether through small groups or singularly. Let Neil’s message ring at every conference and service so the audiences may be emboldened to preserve our great country and its incredible heritage.*

**Tim Wildmon,**

**President, American Family Association**

*Neil Mammen demolishes the myth that Jesus was not engaged in the politics of his day, and in the process sets the church of today free to carry out its proper role in shaping public policy decisions. When the sanctity of life, the definition of marriage and public standards of morality are at stake, the church cannot remain silent. This book is a primer for Christians who want to fulfill the calling of Christ to be salt and light in the culture of our day.*

**Tony Perkins**

**President, Family Research Council**

*Neil Mammen has produced a valuable resource for every pastor - indeed, for every Christian - in America with this book! He combines a strong grasp of Scripture, of Christian apologetics, of politics, of the “culture wars,” and of simple logic to produce a unique handbook that will educate, inspire, and equip. The next time you encounter someone who spouts simplistic statements like, “You can’t legislate morality,” refer them to this book.*

*Hey Christian Citizen-- Wake up! Politics affects your religious liberties! In this great book, Neil explains what you can do to preserve your freedoms and save your country.*

**Brad Dacus**

**President, Pacific Justice Institute**

*This book challenges the wide-spread complacency facing much of America's churches today. A must read for those unsure of the role Christians should play in government.*

**Rev. Walter Hoye**

**Founder, Issues4life, (un-constitutionally imprisoned for standing up for his God Given rights and obeying the “Primary Moral Code”)**

*This book is a biblically bold, uncompromising and timely treatise that offers more than suggestions, exhortations, commendations and testimonials.*

*This divinely inspired message offers a strategy that cannot fail.*

**Phil Fernandes, Ph.D.**

**Pastor, Trinity Bible Fellowship; President, Institute of Biblical Defense**

*Neil Mammen, a first-rate Christian apologist, argues persuasively in this important and timely book that Jesus should be Lord over every aspect of our lives, including our political views and actions. Neil refutes popular myths such as: "America is a democracy...", "Jesus would support big-government socialism," and "Christians should focus on heavenly things; we have no political responsibilities." At a time when our country needs us the most, we must stand up for truth and righteousness in the political arena. Forsaking God's moral laws will destroy our culture. If the church does not take a stand for God's righteousness, who will? This book is a must read for those who want to see America once again blessed by God.*

**Dr. Charlie Self**

*Neil Mammen's book is not for the faint-hearted or anyone afflicted with "PC disease." He confronts issues directly, offers serious reflection of diverse points of view and then forces us to act.*

*Neil is both dynamic and exciting to listen to. He is able to captivate an audience of any age from Jr. High to adults! Neil has a unique ability to take deep and sometimes complicated spiritual truths and communicates them in a relevant way. He speaks both to the mind and the heart. Not only can I speak to his ability as a speaker, I can also speak of his character (and his love of gadgets). Neil lives his life with integrity and his love for God is evident. He knows the contemporary, as well as the historic challenges to the Truth of God's revelation found in the written word and the Living Word, Jesus Christ. He knows how to expose the lie and to expound God's Truth in a convincing, winsome way. Neil is articulate and courageous in presenting his convictions and he helps others to follow his example. *Neil gave the Sunday morning sermons at our church for the month of January 2019. Members of all ages enjoyed learning about the field of Christian apologetics and hearing why the Christian faith is rational and logical. Neil knows his stuff. His talks were informative and fascinating, and his excitement about the subject was contagious. Neil is dedicated to helping both Christians and non-Christians understand why the Bible is true and why Christianity makes sense.*
