

I know you care about black lives-We do too!
Let me ask you this: Do you care about EVERY black life?

Police brutality is evil and we need criminal justice reform, but did you know that 72% of all black kids have no father in the home? Our welfare laws are designed to kick fathers out of the home? We think these bad laws need to change.

Would you agree with me that those fatherless kids' black lives matter?

OK, do you mind if I ask you this: Studies show that this fatherlessness leads to suicides, gang violence, high crime, unemployment & low incomes? Isn't the fact that young blacks are seen as dangerous, a consequence of these racist government policies. As a result of those gangs, inner-city public schools are full of violence & drugs. A majority of black parents want vouchers so they can send their kids to a good school, but the Teachers' Unions won't let them.

Would you agree that those school kids' black lives matter?

A couple more if you don't mind: Police may kill 100 blacks, but did you know 230,000 blacks were killed before birth in America this year alone – isn't that more important? In fact, 36% of all African Americans have been exterminated in the womb. It's a Black Genocide by Planned Parenthood, started by a racist named Margaret Sanger. At this rate, the black population will be exterminated.

Would you agree with me that those babies' black lives matter?

Finally, let me ask you this did you know that there are so many regulations in America that it's very difficult for anyone, especially a black person to start their own business? Small businesses are the best ways to get out of poverty and improve the economy in the inner cities? Shouldn't we change those laws and have a free market?

Would you agree that those jobless black lives matter?
